RE: Comments on the draft conditional right-of-way lease and the state's Alaska Coast Management Program.

I thank you for the opportunity to comment on this project being developed with state agencies/agents, state limited liability corporate entities, et al.

1. I protest, object and deny to any gas pipeline right-of-way being developed without developing an agreement with the tribal governments lands that will be "taken" for this project. This agreement should include a revenue stream/tax/lease/return of capital to the tribal governments that this gas line/right-of-way/energy assistance. This is a resource of the people and rightfully the least expensive energy, clean energy is in the "best interest" of "the state and its people" and as a sovereign indigenous non-treaty Alutiiq woman within Athabascan nation I can only support an equitable, just means of basic essential needs being met for the state and its people and the tribal communities and their people also. Put gas lines into the communities as the line is developed. No one city/borough/state limited entity may monopolize energy to tribal communities.

2. I protest, deny and object to any gas pipeline/right-of-way being developed without developing an agreement with the tribal governments whose lands will be "opened" to "the public" and no plans for limiting access to tribal lands, no assurances are being developed to protect the wildlife areas that the tribal governments have been working on protecting the environment while the state and its peoples are quickly diminishing the wildlife populations with increasing immigrants, military and industry/commerce.

3. I protest, deny and object to any gas/pipeline/right-of-way being developed without developing an agreement with the tribal governments regarding the wildlife protections, fire protections, spill plans, emergency plans and any needed enhancements in the future with the consent of the tribal governments.

4. The "state and its people" in the Constitution of State of Alaska in Article XII, Section 12 have "forever" disclaimed all rights and title of our lands.

Comment letter re:
Gasline through tribal lands

My personal disclaimer to "this state" monopolizing, degrading the environment --without our consent. I believe "the statehood/state of Alaska is an illegal state. The Eskimos, Indians and Aleuts/my peoples were excluded/precluded from voting for statehood (see 1959 Constitution of State of Alaska, Article V, Section 1 Suffrage (voting) which excluded us from voting and said Article V, Sec. 1 was not removed until October of 1970. Plus Russia did not "own" Alaska, could not sell what it did not own (US v Alaska and ERIC v HUD), and the only selling going on was for the "right to commerce" with us and the US had bought the "improvements" on the 41 approximate acres (the forts/the "improvements" they/Russians had made). That's all. Read the Kotzlitov Memorandum explaining all about us "uncivilized tribes", which the Rulers of Russia never claimed "dominion" over. In the 1821 and 1824 Treaties regarding Alaska, the Russians and the Americans and the Spanish and the French and the English all said that they couldn't "Doctrine of Discovery" on us. The 1790 Nootka Sound convention said no "doctrine of discovery" also. And "slavery" was abolished in 1862, right? America didn't "buy" us! The United States did not "buy" the people, or our lands. No boundaries were defined in the Treaty between Russian and America.

Therefore, I suggest that state agencies/agents work things out/partnership/come to an agreement with the tribal governments on whose lands this project proposes to cross/trespass on. The tribal governments are not the ANCSA corporations/state limited liability corporations. ANCSA/state limited liability corporations were created without tribal government consent/ the indigenous peoples consent. ANCSA is an "ACT" of the president. "ACT"s do not require a "vote" of the people. President Nixon did whatever he wanted without our consent. Then Congress approved of what he did. Then Sen. Stevens placed those first board of directors. The peoples never have "ratified"/held a referenda vote on: Statehood; ANCSA, or ANILCA. We have never "ratified" the state limited liability corporation papers/constitutions – if they have one/by-laws or any changes. If "shareholders" have a concern, so what? – the state limited liability corporation is not answerable to "shareholders". The boards get to vote all the shares of those that are under some sort of state care: elderly and disabled that are institutionalized, the mentally challenged, estates, young shareholders, etc. etc. These boards/state entities have enough votes to "control" the "dynasty" that Sen. Stevens et al created. (see attached letter from Alaska Dept. of Commerce and Community Development).

May God Bless You. I expressly reserve all my rights.
Delice Calcote, non-treaty Alutiiq woman, mother and grandmother

DIVISION OF BANKING, SECURITIES, AND CORPORATIONS

Frank H. Murkowski, Governor

September 9, 2005

Oscar Olsen Jr.
C/o PO Box 1085
Dillingham, AK 99576

Dear Mr. Olsen:

RE: Your August 19, 2005 letter to Commissioner Noll

In your letter you ask which department or agency is responsible for the oversight of Alaska corporations created under the Alaska Claims Settlement Act.

No department or agency has enforcement authority over Title 10. To enforce your rights under Title 10 you would have to take civil action in court. Also, there is no Alaska agency that has been given responsibility for the oversight of ANCSA corporations.

However, the Division of Banking, Securities, and Corporations has jurisdiction over the proxy solicitations of ANCSA corporations with at least 500 shareholders and in excess of a million dollars in assets in accordance with AS 45.55.139. A copy of the relevant statutes and regulations is enclosed.

If you have any questions, please feel free to contact us.

Very truly yours,

Eileen Buchanan

Eileen Buchanan
Securities Examiner
