SUBJECT: Comments on Conditional Right-of-Way Lease ADL 229297

Dear Sir or Madam:

The purpose of this letter is to register strong support for granting a conditional right-of-way lease to ANGDA for a gas pipeline project from Glennallen to Palmer.

As a 47-year resident of the state, I have waited a long time to see our gas developed for the benefit of Alaskans. I am encouraged with the progress ANGDA has made in three short years of existence, and moreover I am encouraged the Copper Basin region of Alaska may finally get some meaningful economic development opportunities as a result of lower energy costs.

Thank you for the opportunity to comment.

Sincerely,

Robert A. Wilkinson  
Copper Center Resident
