

**ANNGTC APPLICATION FOR PIPELINE RIGHT-OF-WAY LEASE**

**Table 7  
Facility Site Location and Size**

Potential Sites	Proposed Sites in Application	Location	Landowner	Size (acres)
Prudhoe Bay Metering Station	✓	MP 0	State	5
Compressor Station No. 1		MP 45.1	State	25
Compressor Station No. 2		MP 80.6	Federal	25
Compressor Station No. 3		MP 114.5	Federal	25
Compressor Station No. 4	✓	MP 143.1	Federal	25
Compressor Station No. 5		MP 182.9	Federal	25
Compressor Station No. 6	✓	MP 237.6	Federal	25
Compressor Station No. 7		MP 276.5	Federal	25
Compressor Station No. 8	✓	MP 323.2	State	25
Compressor Station No. 9		MP 382.8	State	25
Compressor Station No. 10	✓	MP 434.2	Federal	25
Compressor Station No. 11		MP 495.7	State	25
Compressor Station No. 12	✓	MP 536.6	State	25
Compressor Station No. 13		MP 581.4	Private (Tanacross, Inc.)	25
Compressor Station No. 14	✓	MP 636.4	Private (Tetlin Native Corp)	25
Compressor Station No. 15		MP 686.7	Federal	25
Compressor Station No. 16		MP 733.1	State	25
Alaska/Canada Border Metering Station	✓	MP 744.8	Federal	5

Station Sites No. 1 through No. 16 are sites that have been identified previously and are noted for reference only. The Station Sites used in this Application are based on the initial average annual capacity of 4,500 MMSCFD. The actual location of Station Sites may be modified after final design parameters are in place to optimize pipeline efficiencies and minimize potential environmental impacts. Any updating of the Project will require the approval of the Federal Energy Regulatory Commission (FERC), through the tiering off of existing analysis of the Project. The Project Sponsors will secure any necessary amendments or other authorizations from the State necessitated by any amendment to the facilities authorized to be constructed by the FERC.
